ABOUT

Aspiring Computer Science student passionate about technology and data-driven solutions. Skilled in Design Thinking, data analysis, and problem-solving, with experience leveraging tools and methodologies to streamline processes and generate actionable insights. Curious, adaptable, and eager to collaborate with industry experts and peers to deliver impactful results. Enthusiastic about learning emerging technologies and applying innovative approaches to real-world projects. Committed to contributing effectively to teams and delivering meaningful, data-driven solutions.

SKILLS

Technical Skills : Python, C, MS Excel ,SQL, HTML.
Soft Skills : Communication, Leadership, Decision-making, Multitasking.
Languages : English, Tamil

PROJECTS

Mini Project – Plagiarism Detection System: A Python-based tool that detects and highlights similarities in text to ensure content originality.

PROFESSIONAL EXPERIENCE

Full Stack Python Intern, Appin Technology   **Aug 2024**
- Gained practical knowledge of full stack development with Python.
- Strengthened skills in API integration, debugging, and deployment.

Python Programming Intern, Interpe   **Apr 2025 - May 2025**
- Enhanced proficiency in Python programming and object-oriented concepts.
- Learned application optimization techniques and industry coding practices.

Data Analytics Intern, Appin Technology   **Nov 2025 - Dec 2025**
- Built hands on experience in data analysis and reporting using Excel, SQL, and Python.
- Analyzed datasets to identify trends and support informed business decisions.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering   **2023 – 2027**
SNS College of Technology
Currently pursuing studies with a focus on software development, programming, and emerging technologies, with exposure to data-driven insights and network systems.

12th Grade, CBSE   **2022 – 2023**
Shree Sarasswathi Vidhyaah Mandheer, Alangombu
Completed higher secondary education with emphasis on Mathematics, Physics, and Computer Science.

JOB SIMULATION

Data Analytics Job Simulation – Deloitte (Forage)
- Analyzed datasets using Excel, SQL, and Python
- Performed data cleaning and exploratory data analysis
- Generated insights and reports to support business decision-making

ACHIEVEMENTS

- Participated in Aether HackConquest Hackathon
- Participated and Qualified in Hackinow Coding Assessment
- Participated in Tata Crucible Campus Quiz
- Participated in Tata HackWave 1.0 Hackathon

CERTIFICATIONS

- IBM – Design Thinking Practitioner
- Microsoft – Azure AI Fundamentals
- Microsoft – Azure Fundamentals
- NPTEL – Affective Computing
- NPTEL – Internet of Things
- NPTEL – Software Project Management
- PrepInsta – Operating Systems
