ABOUT

Motivated and detail-oriented technology enthusiast with strong analytical, problem-solving, and communication skills. Passionate about technology, Artificial Intelligence, and data-driven solutions. Quick learner with the ability to adapt to new challenges, work effectively in collaborative environments, and contribute to organizational goals. Dedicated to continuous learning, professional growth, and developing meaningful solutions while maintaining a commitment to excellence and teamwork.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering **2023 – 2027**

SNS College of Technology

12th Grade, CBSE **2022 – 2023**

Shree Sarasswathi Vidhyaah Mandheer, Alangombu

SKILLS

Technical Skills: Python, C, SQL, HTML, CSS, JavaScript

Core Concepts: Data Structures & Algorithms, OS, Machine Learning Basics

Frameworks: Flask, PyTorch

Libraries: Hugging Face Transformers, Matplotlib, NumPy, Pandas, PDFPlumber, Scikit-learn

Tools: Git, GitHub, VS Code

Soft Skills: Communication, Leadership, Decision-Making, Multitasking

Languages: English, Tamil, German (Basic)

PROJECTS

Plagiarism Detection System

- Developed a Python plagiarism detection system using Jaccard Similarity to compare text.
- Applied text preprocessing for accurate similarity analysis.
- Highlighted matching content to detect copied text easily.

Government Circular Summarizer

- Built a Government Circular Summarizer using Python to generate short, medium, and long summaries from PDF/text.
- Automatically categorized summarized content for clarity.
- Added date highlighting and text-to-speech for accessibility.

AI-Powered Emotion-Based Recommender

- Developed an AI system to detect user emotions through facial expression analysis.
- Classified emotions using machine learning models.
- Recommended games and videos based on detected emotional states.

PROFESSIONAL EXPERIENCE

Full Stack Python Intern, Appin Technology

Aug 2024

- Gained practical knowledge of full stack development with Python.
- Strengthened skills in API integration, debugging, and deployment.

Python Programming Intern, Interpe

Apr 2025 - May 2025

- Enhanced proficiency in Python programming and object-oriented concepts.
- Learned application optimization techniques and industry coding practices.

Data Analytics Intern, Appin Technology

Nov 2025 - Dec 2025

- Built hands on experience in data analysis and reporting using Excel, SQL, and Python.
- Analyzed datasets to identify trends and support informed business decisions.

Data Analytics Intern, Ether Infotech

May 2026 – Jun 2026

- Learned advanced data analytics techniques for data processing and insight generation.
- Applied data visualization and analysis methods to support data-driven decisions.

CERTIFICATIONS

- IBM – Design Thinking Practitioner
- Microsoft – Azure AI Fundamentals
- Microsoft – Azure Fundamentals
- NPTEL – Affective Computing
- NPTEL – Internet of Things
- NPTEL – Software Project Management
- NPTEL – Human-Computer Interaction
- Preplnsta – Operating Systems

ACHIEVEMENTS

- Participated in Aether HackConquest Hackathon
- Participated and Qualified in Hackinow Coding Assessment
- Participated in Tata Crucible Campus Quiz
- Participated in Tata HackWave 1.0 Hackathon
